

## Base Camp Fire Practice Notes

### Fire

We strongly recommend that you talk through, in detail, what to do in the event of a fire. There are two 'fire points' on the campsite, both equipped with fire extinguishers. The fire point nearest to the Base Camp block is fitted with a bell on the back of it. The person discovering a fire should activate this.

The Fire Assembly Point is in the main car park. Should it be necessary to call the fire brigade your location is:

Thornbridge Outdoors, Great Longstone, Derbyshire, DE45 1NY (GRID REFERENCE: 196 710)

**Please note:** No fires may be lit on the campsite. No naked flames or stoves should be allowed in tents. Staff should supervise all cooking.
