

12 Days of Xmas - Day 6

# Piles of Presents

INSTRUCTIONS >>>

# Piles of Presents!

Your aim is to re-build the pile of presents on a different circle, moving it over tier by tier.

- 1 Find 5 of the same item – to act as 'presents' – which are all different sizes, and can be stacked on top of each other to make 5 tiers. Items that work well are pots and pans, cushions, or plastic plates or cups.
- 2 Mark out 3 circles on the floor (or table) either in your home or outside, each large enough for the largest item in your pile of presents. You could use chalk / rolled up jumpers / hula hoops / toilet roll.
- 3 Make a pile out of your 'presents' in the middle of 1 of your circles on the floor, you will need to stack them in size order with the smallest item as the top tier and the largest item as the bottom tier.

Don't forget to wash your hands after playing!

*Your challenge...*

... is to rebuild the pile of presents on a different circle on the floor, still with the smallest tier at the top and the largest tier at the bottom.

## *But while following the rules:*

- 1 Only one tier of the present pile can be moved at a time. A second tier can only be moved after the first one is put down in a circle.
- 2 You can only put a smaller tier on top of a larger one - never the other way around.
- 3 The tiers can only be put down in a circle, never outside of a circle.

Good luck!

If you want to make it more challenging, use 7 tiers for your present pile instead of 5. If 5 is a little too challenging, use 4 tiers for your pile of presents.
