Santa Hunt!

Good luck!

Join in a scavenger hunt at home or in the garden. Imagine that you live up in the cold at the North Pole and the survival of Christmas depends on whether or not you can hunt for everything that Santa needs. Will you complete the list before time runs out??

First things first, you need to decide:

1. Are you scavenging as individuals or in pairs?
2. In your home or out in the garden? (Or both?)
3. Where do you need to be when your time is up?
4. Ask an adult what is off limits & where is out of bounds
5. What will be your time limit? (30 minutes might work well!)
6. How will you know when the time is up?

At the end, you get 1 point for every correct item. Each item may only be counted once!

See if you can find everything on the list on the following page...

When you've done, you must make sure that the items collected (in particular live creatures) are returned to the exact spot that they were found.

Can you find something... ?

As bushy as Santa's beard

That feels as soft and silky as a reindeer's fur

As black as coal, just like Santa's boots

As round as Santa's big belly!

That moves as quietly as Santa delivering presents

That can fly through the sky like Santa's sleigh

As rosy as Santa's merry red cheeks

That has a call, like Santa's 'Ho ho ho!'

As white as fresh snow

That is its brightest and most cheerful in winter

That jingles like a Christmas bell

That you can feel more than you can see
